Special Conditions :

You must comply with the import health standard/s listed on this permit and any special conditions recorded below:

IHSs can be viewed via the MPI website:

<https://www.mpi.govt.nz/legal/compliance-requirements/ihs-import-health-standards/>

If an unwanted organism is identified, a section 52/53 permission must be obtained before any further work is undertaken (info.biosecurity@mpi.govt.nz).

There is a legal requirement to report a positive result immediately to MPI on 0800 80 99 66.

If a new organism is identified, the EPA must be contacted for advice (neworganisms@epa.govt.nz) before any further work is undertaken.

The activities being undertaken must be covered within the scope of the facility's MPI-approved quality management system / operating manual.

The areas of the transitional facility where any invertebrate samples or products are exposed or likely to be exposed must be insect proof as approved by MPI in the transitional facility's operating manual.

Once evaluation is complete, the remaining samples, all residues and wrapping materials must be destroyed as per the facility's approved operating manual or by incineration at the transitional facility approved by MPI for that purpose.

This import permit replaces IMPACT permit 2023081195.

Important Information for Permit Holders and Agents

1. This permit, and compliance with the provisions of the specific import health standard(s) and/or entry conditions, does not guarantee that the goods you import will be given biosecurity clearance. There are other restrictions in sections 27 and 28 of the Biosecurity Act 1993 which apply to the giving of biosecurity clearance. The Biosecurity Act may be accessed at www.legislation.govt.nz.
2. You will need to ensure that the goods you import comply with the provisions of the specific import health standard(s) and/or entry conditions that are applicable. The import health standard may be amended during the course of your permit. The Ministry for Primary Industries will notify you of any significant changes to the import health standard and will re-issue the permit to accommodate these changes.
